Book with complete consignment info!

To be well prepared and identify possible (system) inconsistencies we kindly ask you, as from **21/12/2020**, to enter complete consignment information with your C-Web booking. So please ensure urgently that with all future bookings you can provide us with complete Consignment Information. On the second page of our newsletter you will find the required data elements. Please find the latest update on EDI requirements via below link:

Joint webinar BPDG & CLdN

Last Thursday the first out of two webinars on Brexit took place. Together with HM's Border & Protocol Delivery Group (BPDG) CLdN organized an informative webinar on Brexit. We experienced a huge interest for this webinar and are happy to announce a second one on 9 December. In case you wish to find out latest news on Brexit and working with CLdN, please join!

“Booking in
C-Web is
easy and no
different
than
ordering a
sweater
online”

The last few weeks have been quite hectic. On our freight office department we have seen the full impact of the pre-Brexit rush on all our routes. It once more shows that it is vital that our customers need to be well prepared and handle bookings via C-Web or EDI only. We need to do this not only to cope with the huge amount of data which needs to be processed additionally, but even more so to ensure that all cargoes will follow the correct customs procedure.

Booking freight in C-Web is easy and no different than ordering a sweater online, one customer commented.

Furthermore, our customers will benefit from online and EDI bookings because bookings can be duplicated minimizing manual input and cargo can be tracked and traced via C-Web as well.
