

3-7, rue Schiller L-2519 Luxembourg - Grand Duché de Luxembourg

Brexit Bookings Eastbound

Luxembourg, 09/01/2021

Dear Customer,

Based on the frequent requests we receive on UK to EU bookings because of customs hold, you herewith receive some practical information on EASTBOUND movements and document types:

Units with 1 consignment

- o You can provide MRN or DUCR or MUCR as document number;
- o DUCR/MUCR is preferred, but not mandatory;

Units with multiple consignments

- o You **must** consolidate into a MUCR and need to provide MUCR in **first** consignment;
- o Document numbers for the other consignments can contain any value, but must be unique within the booking;

In case a unit is on the terminal and status is on a customs hold (Arrival at Exit), first action is check in Destin8 if there is a load authority, please see screenshot on next page for your guidance.

If the load authority is not granted: please check your documents as they might be wrong (or incorrect number inserted). This is an issue which unfortunately cannot be solved by CLdN.

In case all data has been correctly entered and hold or error message remains in place, please contact our freight desk, which will further assist you.

Should you have any queries in relation to the above, please do not hesitate to contact us.

CLdN ro-ro S.A.
