

Circular letter to all customers

Reference CLdN Terminal Tariff 2022

Dear Customer

The recent geopolitical events and their impact on the energy prices and inflation in general have resulted in a significant increase in costs related to the service the CLdN terminals provide for the electrical connection of temperature-controlled goods. This forces us to both review the current rates for reefer units (plugged in units and units only requiring monitoring) and to introduce an additional Energy Surcharge on units connected to the terminal's energy grid.

We will evaluate this surcharge quarterly based on the evolution of the officially published market energy prices against our base reference period end 2021.

Therefore, from 01.08.2022 we are forced to apply an additional charge for each started day of plug-in as follows:

Zeebrugge	+9€ / day or any part thereof
Rotterdam	+5€ / day or any part thereof
UK	Currently no surcharge as rates were recalibrated beginning 2022.

Kindly also note the following adjustments

- Zeebrugge and Rotterdam plug-in and monitoring charges have been re-engineered to cater for a day1 charge which includes the connection and disconnection cost. Day2 charges have been reduced with this amount.
- Monitoring charges at our UK Terminals Purfleet and Killingholme have equally been adjusted to cater for the increased operating expenses.
- Plug in charges at Santander and Gothenburg have been adjusted.
- Zeebrugge PSA Wielingendok cost for IMDG Labels added.

Kind regards,

CLdN RoRo SA

CLdN RoRo S.A.
